LITTER APPLICATION RULES AND REQUIREMENTS

Please read and comply with the following rules and requirements. Incomplete or inaccurate applications and/or lack of required documents will delay processing.

<p>USE THIS FORM TO:</p>	<p>Register a litter with Stock Dog Registry Services. <u>Any litter having a parent that is registered as an Australian Shepherd with any of the recognized registries listed below must be whelped by December 31, 2014 to be eligible for registration.</u> Both parents must have current registration with NAMASCUSA, AKC, ASCA, NSDR, the Canadian Kennel Club, MASCA, ASDR, SDRS or IMASC. <u>For authorized crosses, see page 2.</u> Litters having <u>both</u> parents registered with AKC as Miniature American Shepherds or Australian Shepherds <u>must</u> use the AKC litter application process. <p>REQUIREMENTS</p>	<p>1) All dam and sire owner(s) or lessee(s) and litter owner(s) or lessee(s), if different than dam owner, <u>MUST</u> sign the application. The litter owner is defined as the owner or lessee of the dam at time of whelping. The breeder is defined as the owner or lessee of the dam at time of mating. If lessee(s) are signing, copies of the lease must be provided with this application. The only leases accepted by SDRS are an AKC lease/authorization or a SDRS lease agreement.</p> <p>2) Provide a copy of both parents' current registration certificates. <p style="text-align: center;"><u>Pedigree Verification Process</u></p> <p>Verification of generations is done using copies of registration certificates and/or certified pedigrees issued by acceptable registries as listed above in the first box. In some instances, SDRS may already have these documents and therefore some of the dogs in a pedigree may already be verified. However, in many instances SDRS not have any information on dogs within a pedigree especially if the dog is registered with another registry. SDRS does not have access to other registries’ databases. Therefore, the only way verification can occur is to have an official document, as described above, to verify not only a dog’s registered name and registration number but to also verify that dog’s connection (parent, grandparent, or great-grandparent) to your dog.</p> <p style="text-align: center;"><u>Impact of having less than 3 generations</u></p> <p>Dogs with information missing from their three generation pedigree will be enrolled in AKC/FSS with fewer than 3 generations verified. Dogs enrolling in AKC/FSS may have 1, 2 or 3 generations verified in their pedigree. Dogs that have fewer than three generations verified will remain in FSS. These dogs are eligible to participate in all companion and performance events and may be used in a breeding program if breeding rights have been given. However, these dogs cannot participate in the conformation show ring and therefore cannot earn conformation titles. Their offspring can move to full recognition once three generations of pedigree has been established.</p> <p style="text-align: center;"><u>Dogs with three generations verified will be fully recognized.</u></p>
